

In line with the context and strategic plans, NC Line a.s. is working on effectivity improvement of company's quality management system. Top management is aware of its unreplaceable role in the management and control of the company, therefore it issues the following quality policy:

## **CUSTOMERS**

By its products and provision of services in the area of metal laser cutting, punching, bending on CNC machines, locksmithery activities, welding and application of powder colours we're putting efforts to solve the needs and satisfy the expectations of customers and to become one of the producers on an international level that are searched and acknowledged.

## **SUPPLIERS**

Formation of long-term relations with our suppliers, based on mutually beneficial cooperation, is contributing to the meeting of our requirements.

## **IMPROVEMENT OF PROCEDURES**

Effectivity of procedures within the company and the dynamics of their improvement are the basic tools for the achievement of satisfaction not only of our own workers, but also of the customers.

## **EMPLOYEES**

By a goal-oriented increase in qualification, professional competence and engagement of workers in the company, we would like to achieve the quality of products, required by the customer. In this area, we pledge to secure equality of opportunities.

## **LEGISLATION**

Of course, the company observes legal rules and requirements as well as the meeting of requirements and rules within our organisation.

## **COMMITMENT OF COMPANY'S MANAGEMENT**

Company management is bound to form appropriate conditions and to provide necessary sources, leading to the improvement in effectivity of all procedures and activities, supporting the competitiveness of the company.
